Turn your bedding nightmares into dreams

Ordinary cotton sheets and pillowcases can feel rough. And when they're scratchy, it's hard to get a good night's sleep. In addition, skin, hair and dandruff cells, as well as drool and sweat, can soil cotton fibre.

**Norwex Pillowcases, set of two**

## Top 5 Benefits

1. Contains BacLock®, an exclusive antimicrobial micro silver agent in the fabric that helps keep them fresher longer.
2. Fresher pillows can help lessen exposure to microbe buildup such as skin, hair and dandruff cells, as well as drool and sweat.
3. BacLock® in the Pillowcase fabric helps reduce the microbial impact on your skin and acne.
4. Ultra-soft comfort and feels like satin
5. Get better sleep for your brain to clear out harmful toxins and for your body to recharge with the breathable microfibre, no breathing in harmful mould spores while you sleep.
