

Kids Hooded Towel

Wrap them in the warmth of our soft, cuddly microfibre with woodland pals to cheer them on.

Item #: Sage with woodland hood-730005

89 cm x 89 cm

The problem

Kids have extra-soft skin that deserves extra loving care. They need a towel that's super gentle, yet absorbent.

Norwex solution

Constructed of super-soft and extra-gentle Norwex Microfibre, our Kids Hooded Towel is extra absorbent, too. It's a soft, warm snuggly featuring fun, woodland friends that kids will love.

Why it's better

- Save money since you don't need to wash the towel after each use
- BacLock®, our exclusive micro silver agent, protects the cloth by inhibiting odour in the cloth, which means it's ready to use again and again.
- STANDARD 100 by OEKO-TEX® certified, this product and its components have been tested against a list of over 350 harmful substances and passed, enabling you to make responsible decisions for you and your family

What your Customers will love

- Plush, extra-high pile provides extra absorbency
- Perfect for the tender skin of babies and children
- Quick-drying, warm and cosy
- Sized perfectly for little bodies
- Ultra-gentle microfibre is super soft on kids' sensitive skin
- Super absorbent and keeps kids warm and cosy
- The neutral colour and fun pattern are great for both boys and girls

How to use

- When using the Kids Hooded Towel to dry, a patting motion is recommended

Caring for microfibre

Wash dirty microfibre with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets.

Demo tip

- Pass the towel around at your events to let guests feel how soft it is. Remind them how the BacLock® helps protect against microbes and odours within the cloth.*

Did you know

- Children who stay active or play outside consistently should bathe daily; whereas children with drier skin or those who stay inside more often can bathe every two days

Complementary products

- Kids Body and Face Pack
- Kids Pet To Dry
- 4-in-1 Kids Wash
- Kids Bath Sponge

*BacLock® is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odour-causing bacteria, mould and mildew.
