

Mould and Mildew Stain Remover

This bio-based cleaner quickly and effectively removes tough mould and mildew stains throughout the home without harmful chemicals or bleach.

Item #: 600077
355 ml

The problem

You've removed the mould and mildew that had gradually built up in your shower, but the ugly stains still remain. What's the best way to get rid of unsightly mould and mildew stains without using harmful cleaners like chlorine bleach or ammonia, which can burn your skin and irritate eyes, lungs and air passages?

Norwex solution

Our environmentally friendly Mould and Mildew Stain Remover effectively eliminates mould and mildew stains from a variety of surfaces throughout your home. And because it contains no harmful chemicals, it's completely safe for your family as well as the planet.

Why it's safer

- USDA certified 96% bio-based content from plants and other renewable sources
- Bleach-free and powered by hydrogen peroxide
- Container is recyclable, HDPE #2 and made from 25% OceanBound Plastic
- Safe for septic systems

Formulated without

- SLS/SLES
- Phthalates
- Ammonia
- EDTA
- Synthetic dyes
- Chlorine bleach
- Phosphates
- Parabens
- Synthetic fragrances

What your Customers will love

- Fast-acting, it removes mould and mildew stains in just five minutes!*
- Ideal for use in bathrooms, kitchens, cupboards, garages, and more

*For older, stubborn stains, additional treatment may be necessary.

Great for use on:

- Concrete, baseboards (painted and nonpainted), sealed grout, stainless steel, copper and brushed nickel
- Hard, non-porous surfaces, including bathtubs, shower doors, toilet seats, laminate benchtops, sinks, windows, mirrors, glass and ceramic tile
- Plastic surfaces such as shower curtains, vinyl, fibreglass and rubber gaskets of front-loading washing machines
- Not tested on animals
- Vegan (no animal-derived products)
- Available in our AutoSave program

How to use

- Spray cleaner on stained area. Let stand for five minutes. Use a Utility Brush, Grout Brush Attachment or microfibre cloth to scrub the area and then rinse with water. Repeat if needed. Test in an inconspicuous area before using. Treat stains as soon as possible. After using, wash microfibre cloth or brush thoroughly.
- There are two spray settings. Use the screen for direct application; open the screen for broader application.
- Always test on an inconspicuous spot before using. *Not for use on exterior surfaces like mortar, stone or brick, brass, acrylic, unfinished wood surfaces, leather or natural stone including marble and granite.*

Mould and Mildew Stain Remover *(cont.)*

Ingredients

Aqua/Water/Eau (Solvent), Citric Acid (Plant-derived) (Cleaner), Sodium Citrate (Plant-derived) (Water Softener), Hydrogen Peroxide (Oxidising Agent Cleaner), Decyl Glucoside (Plant-derived) (Surfactant), Lauryl Glucoside (Plant-derived) (Surfactant), Sodium Methyl-2-Sulfolaurate (Plant-derived) (Surfactant), Disodium 2-Sulfolaurate (Plant-derived) (Surfactant), Tetrasodium Glutamate Diacetate (Partially Plant-derived) (Chelating Agent).

Contains nut-derived ingredients (palm and coconut)

Demo tips

- Before the event, ask your Host to let you demo the product on a surface that has a mould or mildew stain on it. Apply at the beginning of the event, and reveal the results five to ten minutes later. As it works to break down the stain, remind guests that our product – unlike chlorine or ammonia – contains no harmful chemicals.

Did you know

- Peroxide-based products require specific water within the formulation to be efficacious. Tap water contains iron, which degrades peroxide and reduces product shelf life.
- Don't let stains remain long-term; treating them as soon as you notice them helps make them easier to remove.
- Exposures to chlorine gas, even at low levels, can irritate mucous membranes and cause coughing and breathing problems; burning, watery eyes and a runny nose. Higher levels can lead to chest pain, vomiting, severe breathing problems, fluid in the lungs and pneumonia. (http://www.state.nj.us/health/eoh/cehsweb/bleach_fs.pdf)
