

Stretchy Silicone Lids

Keep food and beverages sealed in and fresh without wasteful, single-use plastic wrap or aluminium foil.

Item #: Teal-358047 (set of 6)

6.5 cm diameter | 9.5 cm diameter

11.5 cm diameter | 14.5 cm diameter

16.5 cm diameter | 21 cm diameter

The problem

Sticking to a food budget isn't always easy – that's why you always save leftovers. But food storage presents its own challenges. Plastic wraps are handy, but they're expensive and they can leach harmful chemicals into your family's food. Also they're not Earth-friendly – after one use they go straight into the landfill!

Norwex solution

These six BPA-free Silicone Stretchy Lids stretch over smooth-rimmed bowls, glasses and other containers so you can easily and safely store leftover food. Use them over and over again without adding waste to the environment (or your budget)!

Why they're better

- Recyclable and reusable, they save you money and help reduce environmental waste from plastic wrap and aluminium foil
- BPA-free
- Poly Aromatic Hydrocarbons (PAH-) free
- Set of six in various sizes to meet most every need

What your Customers will love

- BacLock® in the lids inhibits the growth of odour-causing bacteria on the product
- Made of 100% food-safe silicone
- Creates an airtight seal on smooth-rimmed surfaces; perfect for storing leftovers or keeping beverages fresh
- Round shape fits on non-round containers; just find the size that best suits your needs
- Keeps food and drinks fresh longer and helps avoid spills

- Heat-resistant, food-safe silicone is freezer- and microwave-safe
- Not safe for oven use
- Won't retain food odours

How to use

- Use to keep food or beverages fresh in any smooth-rimmed container
- Use tabs to stretch lids securely over smooth-rimmed bowls, dishes, cups and more – even produce like melons
- Hand-wash only using BioZyme™ Dish Soap Concentrate or Norwex Dish Soap
- Do not wash with abrasive products
- Do not use directly over a flame, near oven surfaces or in the oven
- Do not cut with sharp cutting utensils
- Do not use to cover pots containing boiling foods or liquids
- Highly acidic foods such as tomato-based pasta sauce may stain the lids; please use caution

Did you know

- Silicone does not react with food, liquids and most chemicals and does not offgas hazardous fumes over its life or while in use
<https://www.canada.ca/en/health-canada/services/household-products/safe-use-cookware.html>
- Every piece of plastic wrap ever used since its invention is still in existence, most of it in our landfills
