

Grout Brush Attachment

Tough, durable bristles in a unique v shape quickly scrub your grout back to life. No harmful cleaning chemicals needed.

Item #:  Graphite/Blue-356404
22.9 cm x 3.8 cm

The problem

You know your grout needs to be cleaned, but ugh! It's such a time-consuming chore that's hard on your hands! You could use a harsh solution to help do the job, but you don't want to coat your floors in harmful chemicals. And besides, who knows if those ingredients could damage your grout or tile? It's not worth the risk.

Norwex solution

Make quick work of grout cleaning with our Grout Brush Attachment. Just attach it to either the Telescopic Mop Handle or Multi-Use Handle and use it with the Norwex Home Care cleaner of your choice to safely scrub your grout back to life. No harmful cleaning chemicals are needed!

Why it's better

- Long-lasting, high-quality bristles hold up against tough grout stains and muck without breaking or falling out
- Super-scrubbing bristles in the middle scour away stains from grout while slightly softer outside bristles scrub away dirt and debris without scratching your surface
- Holds up to intense scrubbing action without folding under the pressure like low-quality, less-expensive models
- Contains BacLock® in the outer blue bristles, which inhibits the growth of odour-causing bacteria

What your Customers will love

- Attaches to our durable Telescopic Mop Handle and Multi-Use Handle
- Large size and 180° swivel design result in quicker, frustration-free cleaning around corners and grooves
- Adjustable handle and swivel design mean less aches and pains in your back and hands. No need to get on hands and knees to get the clean you need.
- Made from recycled plastic – better for the planet

- V-shaped bristle design allows you to clean in deep grooves and hard-to-reach areas
- Lightweight and detachable for convenient use

How to use

- Attach to Telescopic Mop Handle or Multi-Use Handle by depressing the push-buttons on the Grout Brush Attachment and sliding it into the handle until the push-buttons lock into holes. If using with mop handle, adjust it to desired height. Not for use with the Spray Mop Attachment.
- Pair with a Norwex cleaner of choice, such as Probiotic Hard Surface Cleaner Concentrate or Bright & White Laundry + Home Booster, for complete cleaning power. *Always test in an inconspicuous spot on specialty surfaces.*
- Once scrubbing is complete, use an EnviroCloth™ or Wet Mop Pad to wipe away dirt and debris
- Rinse brush after each use

Demo tips

- Show how to snap the Grout Brush Attachment into the Telescopic Mop Handle
- Ask the Host if you can demo it on a grout line, if there's one handy. Get the brush wet and scrub a small section, enough to show a "before and after."
- Point out how the brush can pivot 180°

(continued on next page)

*BacLock® is an antimicrobial agent solely intended to protect the product by inhibiting growth of odour-causing bacteria, mould and mildew.

Did you know

- Grout is very porous; avoid using vinegar or acid-based cleaners, especially on unsealed grout, as they can dissolve grout's top layer
- Never use oil-based or wax-based cleaners on grout, as the grout can absorb them, leaving a sticky film that can attract more dirt
