Lead the way

Here at Norwex, we've been helping families (and their furry friends) live freer from harmful chemicals since 1994. As we celebrate our 30th year anniversary, we proudly continue this tradition with our latest innovations in family, home and personal care products – each thoughtfully designed to help you lead a cleaner, safer, better way of life. There are so many reasons to join the Norwex Mission. Contact the Consultant who shared this catalogue with you to discover how you can help make a real difference for yourself, the planet and others. Find all of our products online at norwex.com.au.

Why our products are better

Enzyme- and Probiotic-Based Cleaners

Your home is no place for harmful chemicals – that's why many of our household cleaning products are enzyme- or probiotic-based. These natural elements not only work quickly and effectively to break down soils, stains and odours, they provide a better clean, free from harmful chemicals, so they're safer for your family and the environment.

USDA Certified Biobased

Look for the logo. USDA Biobased Certification indicates that a significant percentage of the product is derived from plants and other renewable agriculture, marine and forestry materials. To date, 26 of our products (and counting) have earned the United States Department of Agriculture's Certified Biobased label – high-profile recognition given only to products that contain a USDA-verified amount of renewable biological ingredients.

OceanBound Packaging

The OceanBound label on some of our 355ml bottles indicates they're made of plastic waste that was at risk of entering the world's oceans. This is plastic that for whatever reason had fallen outside normal collection processes and was in danger of becoming a part of the 9 million tons of discarded plastic estimated to flow into our oceans every year. Bottles made from OceanBound Plastic are completely recyclable in most council recycling streams.

Autosave

Never run out of the products you love! Ask your Norwex Consultant how you can save on recurring orders of select products through our Autosave program. Plus, don't miss our money-saving product sets on pages 58-64.

Made of recycled microfibre yarn. *Contains BacLock®, our exclusive antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odour, mould and mildew growth within the product.

We set the standard for microfibre performance

Save time and money and help the earth

With Norwex Microfibre, you can eliminate harmful, chemical-laden cleaners plus all those single-use disposables like paper towels, floor pads and wipes. That's great for the environment and your budget, saving you about \$600 a year.* Look for this symbol  denoting products made from 50%–91% recycled microfibre yarn. They've saved millions of bottles from the landfill. And with no more lugging around buckets or switching cleaners for every project, you'll save a lot of time, too.

Our exclusive BacLock® self-purifies

Look for the logo  Norwex Microfibre products containing BacLock® self-purify within 24 hours when wet!** This micro silver antibacterial agent embedded in the cloth self-cleanses it – drastically reducing mould, fungi and bacterial odour – so the cloth is ready to use again and again, and it needs laundering less often. Between washes, simply rinse thoroughly and hang to dry.

STANDARD 100 by OEKO-TEX®

When you see OEKO-TEX® you can be sure that every component – from yarn and dyes to trim and label – has been certified free from harmful substances.

All Norwex Microfibre products carry a two-year warranty. For details please visit: norwex.com/product-guarantee.

how to care for your microfibre

- Machine washing and drying are recommended prior to initial use. Rinse slightly dirty microfibre cloths under warm, running water and hang to dry or drop into the dryer.*
- Launder microfibre cloths separately or with other lint-free laundry. Dry completely.
- For best results, use a laundry detergent that's free from fillers, like a Norwex laundry detergent.
- Do not use bleach. Do not use fabric softeners or dryer sheets when laundering microfibre; they coat the fibres and reduce their ability to clean effectively.
- For an even deeper clean, use Microfibre Cleaner Laundry Booster.
- Do not use microfibre (except Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

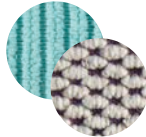

All Norwex Microfibre products carry a two-year warranty.

For details please visit:

www.norwex.com/product-guarantee.

*When air drying, always hang to dry, as leaving darker colours of damp microfibre on benchtops may stain the surface.
