live cleaner, safer, better.™

At Norwex, we're all about ditching harmful chemical cleaners and single-use disposables, making life easier on your wallet and the planet.

With our eco-friendly solutions, you'll save time, money, and effort.

**What sets us apart?** 

Our microfibre products feature BacLock® technology, which uses micro-silver to self-purify within 24 hours when wet! This built-in antibacterial agent helps reduce mould and odours, keeping your cloths fresh and ready for reuse. Plus, they require less frequent laundering—just rinse, hang to dry, and they're good to go!

Make the switch to Norwex for a simpler, cleaner, and safer way to live. Cleaner homes, healthier families, and a better planet!

PLEASE FEEL FREE TO TRY EACH OF THE SAMPLES FOUND IN THIS PACK

**EnviroCloth™** 

Our cloth for cleaning almost EVERYTHING in your home leaving a surface up to 99% bacteria free. When you first clean heavily soiled areas with your dampened cloth, you will notice a resistance when wiping. Keep rubbing surface until there is no resistance. When the cloth glides smoothly over the surface, the surface is clean.

**Where and How to Use:** Wet cloth and wring out well. Fold and use to remove dirt and grime from windows, mirrors, stainless steel, and chrome before wiping over with a dry Window Cloth. Use to clean floors, toys, tools, kitchen and bathroom areas, appliances, sinks, shower, and toilet. It can also be used dry for dusting.

*Found on page 6 of the Spring 2024 catalogue.*

**Window Cloth**

The Window Cloth gets windows and other glass and shiny surfaces clean and streak-free with just water.

**Where to Use:** Use on windows, mirror, crystal, glass, brushed and stainless steel, chrome, knick knacks and other shiny surfaces. It is also great for polishing jewellery.

**How to Use:** For dirty surfaces, clean first with an EnviroCloth™, EnviroScrub or Bamboo Multipurpose Cloth and dry with a dry Window Cloth. For surfaces that require polishing or to remove streaks, spray water on the surface and wipe dry.

For cleaning mirrors or glass that have smudges or small amounts of toothpaste splatter, mist the mirror or glass with a little water, and dry with the Window Cloth. If when you are finished you see watermarks, the cloth is too wet.

*Found on page 7 of the Spring 2024 catalogue.*

**Body and Face Cloth** 

The cloth can be used to clean and lightly exfoliate the skin. It can be used to help control acne, blackheads and eczema and removing face paints from children.

**How to Use:** For dry/sensitive skin including around the eye area, Norwex recommends the Makeup Removal Cloth. If using the Body and Face Cloth, ensure it is very wet. For oily skin or for deeper exfoliation, wring cloth out well before use. More water in the cloth, the less it will remove oils and exfoliate, less water in the cloth, the more it will remove oils and exfoliate.

**Maintenance:** Rinse well and wring out thoroughly before hanging to dry. Wash frequently if user has acne.

*Found on page 32 of the Spring 2024 catalogue.*

### Makeup Removal Cloth

The ultimate facial cleansing cloth that is free from harmful chemicals. These ultra-soft suede-like microfibre cloths remove all traces of makeup using only water.

**How to Use:** Use wet to remove make-up. As cloths are extremely soft they are great to use around delicate eye area and are ideal for sensitive skin.

**Maintenance:** After use, rinse in warm water and hang to dry. Using a little soap on the cloth after use and agitating it under warm water will wash the make-up from the cloth. Wring gently and hang to dry.

### Dual-Sided Makeup Remover

**How to use:** Use to remove makeup, sunscreen and daily buildup. Wet makeup remover with lukewarm water and wring out. Gently wipe face to remove makeup using the fluffy side in a circular motion. Flip to the suede-like microfibre side and gently wipe away any remaining makeup.

*Found on page 51 of the Spring 2024 catalogue.*

### Descaler

Descaler is an effective and environmentally friendly product for removing soap scum, limescale, calcium, rust stains, and hard water stains. Use to remove calcium build-up from glass shower screens. A few applications may be required initially, but then the product can be used once a month to keep build up under control.

**Where to Use:** Use to remove water spots from glass, porcelain, and most bathroom surfaces.

**How to Use:** Wet the surface to be cleaned then spray the liquid on the surface, (e.g. 4 - 6 sprays on a shower screen door). Let it work for 5 - 10 minutes. Do not allow the Descaler to dry on the surface. Scrub using an EnviroScrub or Bathroom Scrub Mitt then rinse or wipe off with a damp EnviroCloth™. Dry with a Window Cloth.

**WARNING:** Do not use on natural stone, such as granite, marble, or terrazzo; painted surfaces; metallic glazed surfaces; cast iron; copper or unsealed grouted areas as the natural acids may damage the surface. Always test on an inconspicuous place before using.

*Found on page 17 of the Spring 2024 catalogue.*

### Odour Eliminator

An environmentally friendly way to deal with unpleasant odours! The bacterial spores in Odour Eliminator work to eat up the organic matter causing the odour. Use anywhere unpleasant odours present a problem. It is an excellent deodorant for use in bathrooms, garbage bins, lockers, changing rooms, etc. It removes unpleasant organic odours and leaves a fresh, clean scent.

**How to Use:** Shake well before use. **As a spray:** It is highly concentrated, so must be diluted with water and it leaves no residue and will not stain. Mix 1-part Odour Eliminator to 7 parts water and spray where offensive odours exist. Direct a light mist toward the ceiling, allowing it to completely refresh the area. **Floor mopping and carpet extraction:** Add 1-part Odour Eliminator to 40 parts cleaning solution.

**Where to Use:** On carpets and furniture as a (light) spray-on room deodoriser, in nappy buckets, cat litter boxes, bathroom/toilets, in washing machine to remove underarm odour, musty smells, smoke smells, and other organic smells from clothing, pet bedding or pet accidents, (gets rid of the smell of cat urine), kids beds especially with wetting accidents, wiping down plastic mattress covers, use with rug shampoo solutions to eliminate odours in carpets, add a cap to washing for sheets after bed wetting.

*Found on page 20 of the Spring 2024 catalogue.*

### Bathroom Cleaner

This highly concentrated formula safely cleans toilets, sinks and most other hard bathroom surfaces without corrosive fumes. The deep action formula allows for effective cleaning and descaling in one application. Use this all-in-one product for cleaning and descaling toilets, sinks, tubs, porcelain and glass, benches, floors, and hard surfaces.

**How and Where to Use:** For tough cleaning jobs, use it full strength. For routine bathroom cleaning use 1-part Bathroom Cleaner and 7 parts water.

**Toilet:** Squirt a light stream over the inside bowl area. Spread around the bowl and under the rim with a brush. Allow to work for 3 to 5 minutes then flush clean. Wipe bowl exterior and seat with a Norwex EnviroCloth™.

**Baths, Sinks, Shower Stalls:** Pre-wet surface. Apply a light stream on surface and immediately spread with a Norwex EnviroScrub. Rinse thoroughly or use an EnviroCloth™ to remove the Bathroom Cleaner from the surface.

**WARNING:** Do not use on polished marble, aluminium, galvanised zinc, tin, or magnesium surfaces. Not recommended for natural stone surfaces. Do not mix with other cleaners. Use caution when applying to metal surfaces as they may discolour.

*Found on page 22 of the Spring 2024 catalogue.*

### Eco-Wash Laundry Detergent Strips

Lightweight and convenient, these laundry detergent strips are tough on stains, odours and grime. Great for home, holidays, and the planet, with no harmful chemicals or waste from plastic packaging.

**How to Use:** Detach strip - One strip cleans one regular load of laundry. Place strip in the machine's base, load clothes on top and start machine. Wash items according to label care instructions. For heavily soiled laundry, use two strips. For small loads, use a half strip. For hand-washing, use a half strip in a small sink of water (up to 4 Litres) or 1–2 strips for bigger loads (up to 15–18 Litres of water).

Lightweight and convenient, these laundry detergent strips are tough on stains, odours and grime. Great for home, holidays, and the planet, with no harmful chemicals or waste from plastic packaging.

**How to Use:** Detach strip - One strip cleans one regular load of laundry. Place strip in the machine's base, load clothes on top and start machine. Wash items according to label care instructions. For heavily soiled laundry, use two strips. For small loads, use a half strip. For hand-washing, use a half strip in a small sink of water (up to 4 Litres) or 1–2 strips for bigger loads (up to 15–18 Litres of water).

*Found on page 20 of the Spring 2024 catalogue.*

### PowerZyme™ Laundry Detergent

This highly concentrated, enzyme-based powder eliminates stains and odours and dissolves grease and grime to get laundry super clean and fresh smelling.

**How to Use:** Follow garment care label instructions and sort. Add detergent first, then add clothes. For standard machines add an additional 5–10 ml depending on load size. Not recommended for use on silk or wool. For best results use warmest water recommended for fabric. Do not use more than the recommended amount per load. For handwashing, dissolve 1–2 scoops in a sink full of lukewarm water; add clothing. Rinse well before drying.

*Found on page 3 of the January 2025 Product Insert.*

### Hydrating Moisturiser

Apply liberally morning and night. Massage onto face, neck and décolletage in upward strokes. Massage any remainder onto tops of hands to help keep them younger-looking too.

### Renewing Eye Cream

Dispense a small amount onto your ring finger and pat gently around eye area. Use daily - morning and night.

### Cleansing Facial Powder

Use daily. If needed, start with a microfibre cloth to remove makeup. Dispense powder into very wet hands and rub together to create a foam. Apply to face in a circular motion, avoid the eye area, and rinse thoroughly. Do not use pure powder without water.

### Illuminating Oil

Gently massage three to five drops onto cleansed face and neck, both morning and night. Apply after Hydrating Moisturiser, or blend them and apply together. Can be used on ends of dry hair and dry cuticles.
