WHY NORWEX MICROFIBRE?

Physically removes dirt and up to 99% of bacteria from surfaces with water alone.** Ultra-thick and absorbent to pick up and hold more dust, dirt and debris than other cleaning cloths. Absorbs up to 7 times its weight in water. When used dry to dust, the electrostatic charge within the cloth picks up and holds everything.

BacLock®, our antimicrobial agent, inhibits odour in the cloth, so it's ready to use again and again which means you launder less.
