

live cleaner, safer, better.™

NEW ZEALAND 2026/27

At Norwex, we believe living cleaner, safer and better – the Norwegian Way – isn't a trend; it's a way of life. In this catalogue, you'll discover products thoughtfully designed to reduce harmful chemicals in your home while protecting what matters most: your family's health.

Small choices at home add up – and their impact reaches far beyond your four walls. By cutting pollutants, paper and plastic waste, you're simplifying your routine while caring for the world we all share. Each product is crafted to the highest standards and backed by trusted certifications.

The result is a home that feels cleaner, healthier and more cared for – proof that small, everyday choices can make a meaningful difference.

Our Mission

Sharing a cleaner, safer way of living
by reducing harmful chemicals
in everyday lives.

THE NORWEGIAN WAY

FEWER CHEMICALS

Reduce harsh cleaners in your home to protect your family's long-term health and limit the chemicals released into our soil, waterways and environment.

LESS WASTE

Single-use paper products drive massive tree loss every day. Norwex products help cut back on paper towels and napkins, reducing everyday household waste.

LESS PLASTIC

Made with recycled plastic, our durable microfibre products are designed to last. By focusing on quality and longevity, we help reduce single-use plastic and keep it out of our oceans.

We're honored to have received certification from leading third-party organisations – confirming that many of our products meet the highest health, safety and sustainability standards. Look for these icons.

EWG VERIFIED®

Our **Environmental Working Group** partnership offers consumers transparency and peace of mind knowing that verified products meet the strictest health standards and are free from EWG's chemicals of concern.

Products you can feel good about

From sourcing to standards, we're open about the choices we make – so you can feel confident in yours.

Norwex means quality that lasts. Quality isn't just a product feature, it's our commitment to reducing unnecessary chemicals and embracing sustainability.

We demand quality and transparency from our partners as well as ourselves, from the ingredients we source to the final product.

We've banned more than 2,700 questionable substances from our product development process. And our products are designed to endure; they're reusable, refillable and rigorously tested for performance, safety and sustainability.

STANDARD
100

OEKO-TEX® STANDARD 100

Keeps you and your family safe by testing each component of a certified product against a list of over 1,000 harmful substances.

USDA BIOPREFERRED® PROGRAM

The **USDA Certified Biobased logo** gives you confidence in the amount of renewable plant- and nature-based ingredients in our products, helping you reduce harmful chemicals in your everyday life.

NORWEX MICROFIBRE

Unmatched quality.¹ Unmistakable clean.

From the tiniest dust particles to sticky, stuck-on messes, Norwex Microfibre physically removes dirt and up to 99% of bacteria from a surface with water alone.²

Extremely Effective

Dense and durable Norwex Microfibre picks up whatever life lays down, removing the need for harmful household chemicals or wasteful, single-use products.

Highly Absorbent

Extra-absorbent Norwex Microfibre cloths can absorb up to 7 times their weight in water!

Fresher Longer

Just rinse, hang and reuse!³ The BacLock^{®4} antimicrobial agent protects the cloth by inhibiting odour in the cloth, which means it's ready to use again and again.

Sustainable

With many products containing up to 70% recycled materials, Norwex has helped keep millions of plastic bottles out of landfills.

Two ways to use:

Used wet, Norwex Microfibre lifts messes up into the cloth and away from the surface. Used dry, the fibres create an electrostatic charge that grabs and holds the smallest dust particles.

¹All Norwex Microfibre products carry a two-year warranty. For details please visit: <https://norwexbiz.nz/the-norwex-guarantee/>

²When following proper care and use instructions. Wipe with even strokes. For optimal cleaning, fold and refold to create multiple cleaning surfaces.

³After extra-dirty kitchen or bathroom tasks, machine washing is advised.

For complete microfibre care and use instructions, visit <https://norwexbiz.nz/the-norwex-guarantee/>

⁴ BacLock[®] This graphic is noted throughout the catalogue to differentiate those products that contain BacLock[®], an antimicrobial agent solely intended to protect the cloth by inhibiting growth of odour-causing bacteria, mould and mildew. BacLock[®] does not protect people from disease-causing pathogens. IMPORTANT NOTE: Some surfaces and finishes can be easily damaged. Please always test Norwex Microfibre on an inconspicuous spot first. Do not use microfibre (except Norwex Optic Scarf) on anti-glare surfaces.

The simplest clean, without chemicals

Norwex Microfibre lifts and traps household messes and physically removes up to 99% of bacteria from surfaces with water alone.¹

EnviroCloth™ OEKO-TEX®

The one cloth that replaces it all. Clean almost everything – using only water. This densely woven, superfine Norwex Microfibre cloth can help eliminate 53 chemicals commonly used in cleaning.³ Traps dust and grime in the cloth, leaving surfaces cleaner so you clean less often. Use it wet or dry to replace disposable paper towels and chemical cleaners for a simpler, more sustainable clean.
